## Moto-Cart Electric Travel & Lift Standard Features

The Moto Cart Electric Travel and Lift solves many ergonomic applications. With electric travel variable speed controls make horizontal movements effortless. Electric Lift/Lower places the load at the proper height avoiding bending to pick up heavy loads. Sliding boxes in and out of shelving, work benches, tool handling, die handling and equipment delivery are just a few applications where the Moto-Cart Electric Lift have been applied. If you have a custom application, please contact us with your requirements.

Lift Height 63"

- Front Wheel Transaxle Drive
- Automatic Breaking
- 24 Volt Electrical System
- Curtis Controls
- Emergency Stop Bump Switch
- (2) 33 AMP Maintenance Free Batteries
- Pneumatic Non-Marking Rubber Drive Wheels
- Back-Up Beeper
- Key Switch
- Battery Gauge
- Roller Grip Controls
- Adjustable Top Speed
- On-Board UL-Charger
- Free Wheel Mode
- Poly Casters

Lowered Height  
16/18.5"

Easy to use controls with  
adjustable top speed control

Optional Safety Skirting

## Electric Lift Moto-Cart Jr.

The JRMC-ELT features an electric powered travel and lifting mechanism. This feature even further increases the productivity and ease of use for operators, while retaining all the other same utility of the manual version. This is especially useful in applications that require frequent repositioning of loads, and to ensure maximum reduction of physical strain for the operator.

MODEL	Vertical Travel	Capacity	Height		Platform Size (WxL)	Drive Speed	Weight
			Lower	Upper			
JRMC-11-ELT	45.5"	1,000	18.5"	64"	23" x 43"	2.8 MPH	569

## Manual Lift Top Moto-Cart Jr.

The JRMC-LT features electric travel and foot pump which easily raises the platform to a convenient work height. To lower the platform a simple squeeze of the control handle makes repositioning easy, and allows for the operator to set the height at any level desired.

MODEL	Vertical Travel	Capacity	Height		Platform Size (WxL)	Drive Speed	Weight
			Lower	Upper			
JRMC-11-LT	25"	1,000	16"	41"	23" x 39.4"	2.8 MPH	498
